VINCENTIUS ELBERT LAMBERTUS

FRONTEND / FULL-STACK DEVELOPER

Jakarta, Indonesia | vincentiuselbert@gmail.com | +62 853 1190 0833

Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Frontend-focused full-stack developer with 3+ years in software, including 2+ years of professional development. Specialized in the React ecosystem (React, Next.js) with TypeScript and Tailwind CSS, backed by hands-on Laravel and SQL Server experience. At IRIS Worldwide I build loyalty products for FMCG brands end to end: a React Native mobile app, admin dashboards, and the APIs and campaign logic behind them, including rewards redemption, referral programs and WhatsApp chatbot integrations. Comfortable owning a feature from requirements to API contract to UI. Seeking remote opportunities with innovative international teams.

TECHNICAL SKILLS

Frontend Core	React, Next.js, TypeScript, JavaScript (ES6+), Vue.js, Inertia.js
Styling & UI	Tailwind CSS, Shadcn/UI, Radix UI, Framer Motion, Responsive Design
Mobile Development	Expo (React Native), Cross-platform Development
Backend & Database	PHP/Laravel, REST API Design, ASP.NET, SQL Server (T-SQL), Role-Based Access Control
Tools & Workflow	Git, Figma, VS Code, Vercel, npm/yarn, Agile/Scrum
Languages	Indonesian (Native), English (Professional)

PROFESSIONAL EXPERIENCE

Frontend Developer

IRIS Worldwide (NAVA+) | Jakarta, Indonesia | Aug 2025 - Present

Build and maintain the loyalty CRM platform and member-facing products for two FMCG nutrition brands.

- Architected and developed a loyalty mobile application using Expo (React Native), React, TypeScript and Tailwind CSS, serving thousands of active users.
- Built the admin CMS and API for a Flash Sale points-to-rewards feature, with eligibility rules, one-redeem-per-member limits, duplicate-safe redemption, and e-voucher and physical reward fulfilment. Defined the API contract used by a separate Drupal frontend team.
- Developing a new Member-Get-Member referral platform shared across both brands, with multi-program support, role-based access control, CSV import of uplines, and an admin dashboard built from a design prototype.
- Built a Data Leads analytics dashboard (Vue.js, Inertia.js, Tailwind CSS) with user-customisable columns discovered from JSON data, filters, KPI cards and export. Diagnosed and fixed SQL Server JSON queries on legacy text columns.
- Delivered a WhatsApp chatbot registration API for a national children's colouring competition, integrated with an OCR receipt-verification pipeline that issues entry codes automatically.
- Implemented centralized logging of all incoming API traffic across both brand applications (Laravel middleware and after-response jobs), with masking of sensitive data, giving the team a full audit trail for debugging.
- Made campaign bonus rules configurable, so marketing can switch promotions on or off without a code deployment.
- Work in Agile sprints with project managers, designers and partner teams, turning business requests into technical specs and API contracts.

Microsoft Technical Consultant

HAND Global Solutions | Jakarta, Indonesia | Dec 2024 - May 2025

- Developed custom solutions within Microsoft Dynamics 365 using JavaScript, .NET C# and SQL.
- Created automated workflows and interactive dashboards using Microsoft Power Platform (Power Apps, Power BI, Power Automate).
- Enhanced user interfaces and improved system performance through optimization techniques.

Software Developer

Indo Mobil Sukses Internasional | Jakarta, Indonesia | Jan 2024 - Jun 2024

- Developed frontend features for a DMS platform using ASP.NET/VB.NET, focusing on user interface improvements.
- Implemented new menus and functionality for the After-Sales module, enhancing user experience.
- Collaborated with Business Analysts and cross-functional teams to translate requirements into technical solutions.

Coding Instructor

KodeKiddo | Bali, Indonesia | Feb 2022 - Feb 2023

- Taught programming fundamentals to students from Kindergarten to Senior High School.
- Trained teachers nationwide in coding education as part of the Kominfo government program.
- Developed teaching materials and conducted workshops, improving communication and mentoring skills.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science

Binus University | Jakarta, Indonesia | 2019 - 2023

Web Programming Hack - Frontend Specialist

AHADEMY | Completed Jul 2025

- Advanced training in HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Framer Motion and Radix UI.

KEY STRENGTHS & HIGHLIGHTS

- **Modern React Ecosystem:** Proficient in React, Next.js and TypeScript, with production experience on web, mobile and admin dashboards.
- **Full-Stack Delivery:** Ships features end to end, from database queries and Laravel APIs to the UI, and writes API contracts other teams build against.
- **Mobile Development:** Hands-on experience building cross-platform mobile apps with Expo/React Native.
- **Loyalty & CRM Domain:** Builds loyalty, rewards and referral systems for consumer brands on live production data.
- **Team Collaboration:** Effective communicator in Agile environments, working with PMs, designers and partner teams.
- **Remote-Ready:** Self-motivated, with strong time management and written communication for remote work.
